

SOGALA needs a new webmaster as of March 31, 2010. You could maintain the web site as it is, or completely rewrite and/or redesign it. The choice is between you and the SOGALA executive. What you need, to take over what I've been doing, is a basic understanding of HTML and CSS and a little bit of JavaScript. The web site code is not complicated and I'm happy to do some coaching. The most important thing is an interest in maintaining the site. You might want to redo the entire web site using Front Page, for instance. That's fine, but it's nothing that I could help with.

If you think you might be interested, send me an email ([paulweeks@shaw.ca](mailto:paulweeks@shaw.ca)) and we'll arrange a time to chat.
